

## CLAY BASKET AND BABY ART:

Take modeling clay or play dough to form a basket and a baby to put inside the basket. If the baskets are big enough, take a toothpick and write MOSES on the clay baskets!

## LOVE AND PROTECTION COLLAGE

Take a large piece of paper, or a piece of poster board. Draw a circle in the middle of the paper. Write in very large and bright letters -- GOD'S LOVE AND PROTECTION. Then draw or write words about God's love and protection for us or for Moses -- words that you think would describe or show God's love and protection for us.

## Baby Moses Wave In A Bottle

### Supplies:

A clear bottle (like a water bottle)

Water

Oil (vegetable oil or baby oil)

Blue food color

Pony beads (any colors)

Pipe cleaners (Brown)

Hot glue gun

The trickiest part is getting the density of Baby Moses right so that he floats on the water but sinks in the oil.

To make Baby Moses, hot glue 3 of one-color pony beads together, then a different color bead at the top. (This is supposed to look like his blanket, and his head.) Then you

bend a brown pipe cleaner around in an oval shape, and glue the baby on top. You can also add a little tuft of hair with a black pipe cleaner on top of his head.

Fill your bottle about half with water, then put in one drop of blue food color. Drop in the baby, fill the rest of the way with oil, and hot glue on the lid. That's it!

### **Some tips for getting the density of Baby Moses right:**

Pony beads seem to float perfectly between the oil and the water. Once you glue the pony beads together, they float on top of the oil.

Pipe cleaners will sink in water.

Therefore, the baby is too light (floats on top the oil) and the pipe cleaner basket is too heavy (sinks to the bottom of the water) so when you glue them together, they float in the middle. You may have to experiment to get this right.
