

# KITE DAY

Take a day and fly a kite. You can either buy one or make a kite.  
Watch the wind fly your kite.

Here's a very simple kite to make. There are many ways to make a kite, you just need to look on Pinterest.

## ***SUPPLIES NEEDED FOR PAPER BAG KITES***

- paper lunch bags
- yarn or strong twine/string
- popsicle stick
- scissors
- streamers
- tape
- scissors
- embellishments: stickers, paint, markers, crayons, construction paper, washi tape

## ***DIRECTIONS***

To get started, decorate the paper bags using a variety of embellishments. Stickers and washi tape work really well to add some fun prints and colors! You can also draw designs with markers and crayons or add polka dots and stripes using washable paints. Just make sure the paint is dry before moving on to the next step.

Using a pair of scissors, snip a little hole on the bottom base of the bag. This will be used for the kite string.

Cut a piece of yarn or string about 18-24 inches long. Tie one end to the middle of a popsicle stick and feed the other end through the hole in the bag. The popsicle stick will keep the kite string from pulling out when it's flying.

Attach streamers to the open end of the bag using tape. Now the kite is ready to fly!

# FLASHLIGHT GAMES FOR KIDS

**Flashlight hide-and-seek** – The person who is “it” is the one with the flashlight making it more challenging to find a good hiding place! A simple tag with the beam of light is considered a “catch”.

**Flashlight capture the flag** – Set some boundaries in your yard or nearby park and use lit flashlights for the flag. Covering the light is against the rules and when your team sees the light you are guarding moving, you better get moving too!

**Flashlight freeze** – Get silly and work out the wiggles by dancing and moving until the flashlight beam hits which is the signal to freeze! Those who move in the light are out!

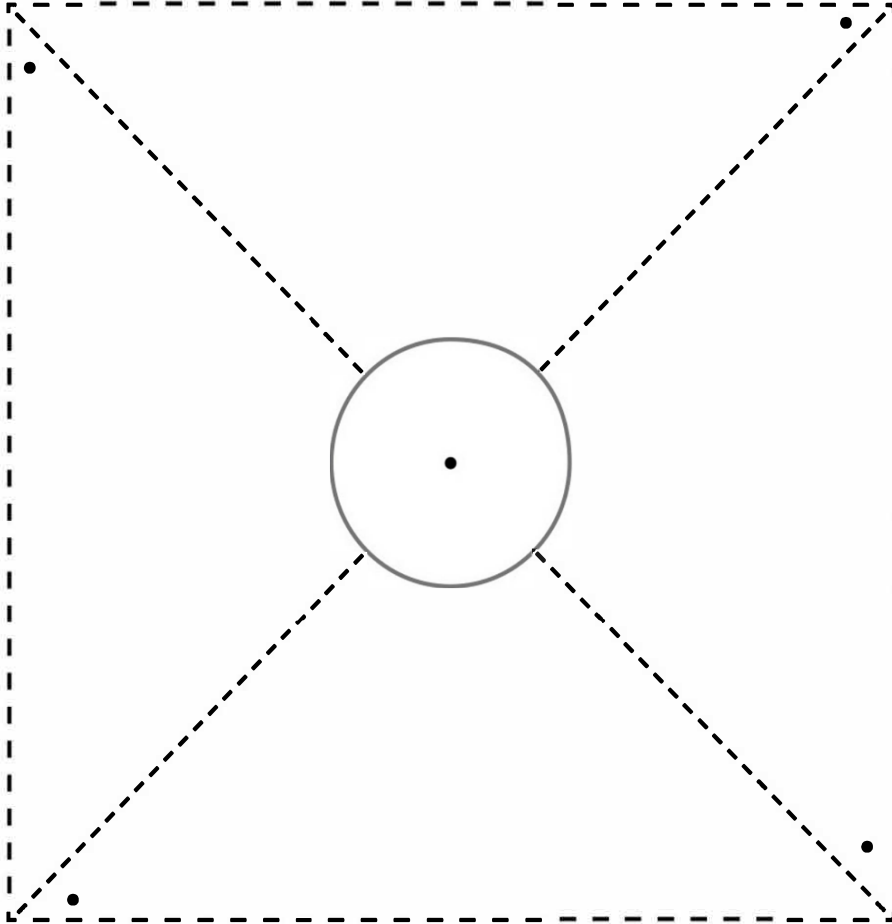

**Flashlight puppet show** – Shadow puppets are always popular and you can set up a light stage with a simple flashlight and a smooth surface.

## HOLY SPIRIT PINWHEEL

Make a simple pinwheel using the [template](#) provided.  
(You can make your pinwheel larger than the template.)  
Decorate your pinwheel.

After the pinwheel is completed, run and watch your pinwheel move with the wind - or place them in front of a fan. Even though you can't SEE the wind you know it is there because they see the pinwheel moving. Just like the Holy Spirit can't be seen, but we know that it is with us.

# SIMPLE PINWHEEL TEMPLATE

1. Cut out the square and color the front and back.
2. Cut along the dotted lines towards the middle.
3. Use a pushpin to poke holes in the center and corners of the pinwheel.
4. Fold the corners into the middle, lining up the holes. Secure on top of the pencil with the pushpin.
5. Your pinwheel is ready to blow in the wind, or by blowing air on it!
