

# PEACE POSTER

Take a piece of poster board or five pieces of construction paper. Divide the poster board into 5 spaces and label each one with one of your five senses.

smell	feel	sound	looks	taste
-------	------	-------	-------	-------

If you are using construction paper write a sense on each paper.

Write or draw what goes in each category that you think shows what **PEACE** is to you.

# PEACE SIGNS

Take a white paper plate... those very flimsy ones from the dollar store. They have a light coating on them so that the tape will pull up fairly easily. Put masking tape on the paper plate in the shape of a peace sign. Be sure that all the edges of the tape are down so that no paint would seep through.

Use watercolors. Cover the entire plate with as many colors as you want.

After your painting has dried, carefully peel off the tape, then outline your **PEACE** sign with a black sharpie.

Use cardboard to make a **PEACE** sign. Then decorate it with anything you may have. Examples: buttons, bottle caps, stickers, flowers, or paint. Put a string around the top and then hang it up for everyone to see.

# PEACE ROCKS

Find some smooth rocks. Look in your yard or someplace else there might be rocks and stones. Use paint or permanent markers and decorated the rocks with peace signs or peace symbols. Share your rock with someone or leave it in the park or on the sidewalk. A place that someone may find it. Hopefully your **PEACE OFFERING** will make someone think of being at peace.

**Think of your own idea for sharing  
and showing PEACE.**
