Make a copy of the body from the next page.
You may cut out as many as you want.

### *Draw a character on each page.*

Use crayons, colored pencils or markers to draw a character on each page. Create interesting people such as a clown, cowboy, princess, policeman, astronaut, hula dancer, scuba diver or ballerina. You can even draw your favorite cartoon character, a scary monster, a superhero, or an imaginary character.

### *Cut along the dotted lines.*

Cut each page along the 2 horizontal dotted lines. Remember to stop cutting once you reach the solid vertical line.

### *Add a front and back cover.*

Gather the pages together. Add a page of plain colored paper in front and another one at the back.

### *Staple the pages together.*

Staple the pages together about ¾-inch from the left edge. This roughly corresponds to the position of the solid vertical line on the left side of each page.

### *Decorate the front cover.*

Decorate the front cover by drawing or coloring on it.

### *Turn the flaps.*

As you turn the flaps and make many interesting characters, have them give an excuse for not joining the party.

Tell any story you like using your flip book.
